User Stories for File Management App

As a registered user, I want to backup my entire hard drive, so that I never lose any important data.

As a registered user, I want to upload files, so that they are safely stored.

As a registered user, I want to select the files or folders that I want to share, so that I can collaborate with my colleagues.

As an unregistered user, I want to register, so that I have access to all the registered users' privileges.

As a registered user, I want to download all the files selected, so that I can access them offline.

As an admin, I want to be the only one that changes my folder's permissions, so that I can control who has access to it and can edit its files.
